Children ages five to 12

Q3 **What types of features would you like to see? (Select up to three)**

Multi Choice

Outdoor games (for example, hopscotch, table tennis, cornhole, tic-tac-toe)
Entrance feature and interactive public art
Other: A safe small children stimulation/engagement area (ie. sandbox, busy boards, etc). Also consider adding soccer net(s) on opposite side grass side of the Weller entrance given the socio demographic shift of the area and rising popularity of soccer in Welland. That area of grass is never utilized by anyone whenever I am visiting the park. Thanks!

Q3 **What types of features would you like to see? (Select up to three)**

Multi Choice

Other: Needs to be kept with play equipment for younger children just like it was. The big o e gets too chaotic for little ones with all the bigger kids running around and playing. It was so great to have the smaller play area for little ones to enjoy and parents to breathe a bit not worrying that their little one was going to get knocked down or hurt

Multi Choice

Other: Challenging age appropriate playground for older / bigger children please understand this will be crucial for kids mental health, combat childhood obesity and reduce screen time. During COVID the playground shut down then was torn down then a beautiful toddler park was rebuilt in its place What about older kids ? Please help also the parking on Laughlin Ave is so unsafe creating a larger parking lot at the end of seller ave will not solve that problem people with young children in strollers and people using wheel chairs or walkers will not and can't walk through the grass of the park.

Community led garden / pollinator garden
Other: Disc golf baskets. An expansion on the park play structure- on an average nice night there's upwards of 25+ kids playing on the current one, which is dangerous for small children trying to share the space. (Especially since it's visible from a main road, lots of people from outside the Chippawa park community come to use the space)
Outdoor games (for example, hopscotch, table tennis, cornhole, tic-tac-toe)

Other: I also usually visit the park with our dog as do many people walking through the park (previous question). In addition to 'open lawn or flexible play space' I would suggest extending the paved pathway from the parking lot at Fitch Street entrance that runs past the War Memorial and the pond that used to end at the bottom of Weller Avenue and extend it all the way along the creek (albeit a much narrow paved walking pathway) and continue it past the two steel bridges crossing over the creek and create an entrance at the far north side of the park at Laughlin Avenue.

Seating and social gathering space with increased tree canopy
Community led garden / pollinator garden
Other: Habitat Restoration and Biodiversity: I would like to see a stronger focus on habitat restoration to support local wildlife and biodiversity. For example, creating a wildlife corridor with more wooded areas would allow animals to move more safely between habitats. Our neighbourhood has seen an increase in foxes and coyotes due to habitat loss along the canal and river, and reconnecting these natural areas could help mitigate that impact. Increasing the tree canopy—particularly through the planting of native tree species—would also provide cooling and shade during the summer months for both people and wildlife. Additionally, I would love to see a walking path through a wooded area with picnic spaces, or a path that connects both playgrounds and is flanked by native plants. Including educational signage identifying local flora and fauna would enhance environmental awareness and community engagement.

Other: I would definitely like to see the two items I mentioned but I am not sure this space at the end of Weller is where it should be located. I am thinking a teaching garden space which could be near the current rose garden - a space where people could learn how to create a pollinator garden for example. I would love a social gathering space that doesn't need to be rented and isn't right next to the play areas (once one has raised their children, you don't necessarily want to be listening to them). I am not sure that having it next to the parking lot at the bottom of Weller is the best space although accessibility-wise, I suppose it works. I think this social space could also feature interactive public art.

Other: You mention that no new play structure will be going up but that's what this park needs. The other play structure on Laughlin is geared towards younger children. We need a play structure for older children too. We need to encourage our children to play outdoors rather than play video games indoors. In order to do that we needs areas for them to enjoy. More swings and slides. Low impact exercise could work for adults and kids. To have a pool put in again would be amazing
